

Siren Operated Sensor

SOS-G/YDT

Medium Security SOS

Safety:

- Engineered to allow swift passage to emergency vehicles through gates
- Will open any manufacturer's gate hands-free
- No additional keys or codes required
- Listens for a siren in the "yelp" mode while other sounds are rejected

Features:

- "Yelp" response time is 3 seconds
- Other sirens allow passage in 5 seconds
- Small but noticeable reminder decal on access system for emergency response teams
- Adjustable sensitivity for two to more than twenty feet
- Arming loop detector available
- Switches to: Yelp or Decibel Time

Don't let this happen to your police, fire, or medical response teams!
